The first substantial study comparing Mary Shelley and Margaret Atwood, this book examines a selection of the speculative/fantastic novels of these two influential writers from the perspectives of contemporary feminist, postcolonial and science studies. Situating her readings at the troubled intersections of science, gender and history(-making), Banerjee juxtaposes Shelley's *Frankenstein* and *The Last Man* with Atwood's *The Handmaid's Tale* and *Oryx and Crake* in a way that respects historical difference while convincingly suggesting a tradition of ongoing socio-political critique in the work of women writers of the fantastic over the past two centuries. She offers insightful fresh readings of Shelley and Atwood, bringing out how the cognate values of technoscience and capitalistic imperialism work in tandem to foster oppressive gender ideologies, social inequity and environmental ruin. Banerjee explores how Shelley and Atwood levy powerful critiques of both positivist, masculinist science and the politico-economic proclivities of their respective times, engaging, in the process, with the meaning of the (post)human, the cultural impact of male (Romantic) egotism and the public/private division, the colonial impulse and its modern day counterpart, the patriarchal ideologies of 'love' and motherhood, and the sexual-politics of official historiography. Combining lively, creative scholarship with theoretical rigour, the book offers a nuanced study of the ways in which Shelley's and Atwood's novels each take critical aim at some of the conventional oppositions—nature/culture, masculine/feminine,

reason/emotion, art/science—that have since long defined our lives in western technoculture. The book re-opens the ‘two-cultures’ debate, suggesting that Shelley’s and Atwood’s futuristic visions posit humanistic education and art as the ‘saving graces’ that might counter the schisms and reductionism innate to the technocapitalistic world view. One highlight of the book is the way the author goes beyond a strong critical consensus on Frankenstein and reads the novel not as a denunciation of technological violation of nature but as a subversion of the thematic itself of Nature versus Culture. Similar innovative interpretations are offered on the gender question in *The Last Man*, and on Atwood’s engagement with ‘feminist mothering’ in *Oryx and Crake*. In the early nineteenth century, when the Hudson's Bay Company sent men to its furthest posts along the coast of North America's Pacific Northwest, the letters of those who cared for those men followed them in the Company's supply ships. Sometimes, these letters missed their objects -- the men had returned to Britain, or deserted their ships, or died. The Company returned the correspondence to its London office and over the years amassed a file of "undelivered letters." Many of these remained sealed for 150 years until they were opened by archivist Judith Hudson Beattie, when the Company archives were moved to Canada. The letters tell the stories of ordinary people whose lives are rarely recounted in traditional histories. Editorial commentaries frame, for contemporary readers, the words of early nineteenth-century working- and middle-class British folk as well as letters to "voyageurs" from Quebec. Their stories offer rare insights into the varied worlds of men and women who settled the Pacific Northwest.

book is unusual in that it contains poems, songs and incidents (humorous and not) from both sides of the conflict. It adds a great deal of humanity to the overwhelming historical events of the Civil War. It is full of tales of military rabbit hunts, Irish women smuggling brandy flasks in chickens, and ribald jests and ungentlemanly jokes. It contains a touching account of a former slave's first free Christmas, heart rending narratives of widows and orphans, and countless tales of heroism. The tales of heroism often provide the most grisly detail, such as "My mouth was full of blood, fragments of teeth and gravel, my breast-bone almost broken in and I lay in mud almost two inches deep." This is a book you can dip into anywhere and come away with a new understanding of the human spirit and the strength, humour and courage it took to survive terrible times.

While the story of the apparitions of Our Lady to Bernadette Soubirous at Lourdes in 1858 are well known, relatively few people are familiar with the saint's own spiritual insights and profound holiness. For the first time in English, this book presents a wide selection of St. Bernadette's thoughts, advice, sayings, and prayers through the touching words of her spiritual diary, notes, and letters to friends and family. After receiving the visions of Our Lady at the grotto in Lourdes, Bernadette eventually became a religious sister as a member of the Sisters of Charity. She lived a life of simplicity, charity, suffering and deep holiness, dying at the age of 35. When she was canonized a saint, her body was found to be incorrupt. In these beautiful writings of St. Bernadette, we learn the secrets of her holiness and happiness. Though she suffered greatly throughout her life, the heroic response of this humble, self-effacing nun transformed excruciating suffering into spiritual fruitfulness. Her letters and writings serve as a model for others passing through their own trials. Her writings reveal and intimate and profound love for God

Barack Obama has inspired millions of people around the world—and an unwavering chorus of those admirers are children. This delightfully charming collection includes more than two hundred letters that kids have written to President Obama. Some of these messages are humorous, some are heartwarming, all of them are sincere—making this volume the perfect gift for any occasion. The children ask questions: “Why did you want to be president?” “Do you think you could pass a law making chocolate a vegetable in our country?” They give suggestions: “I think you should fix things in the world to be more fair.” They offer advice: “You should bring a yo-yo to the White House.” They share hopes: “I want you to care about schools. I am in kindergarten.” They even volunteer expertise: “I will help you learn to bowl because you don’t know how to bowl.” Whether discussing such weighty issues as the “econimical” crisis, the environment, and alternative energy or simply giving shout-outs to First Daughters Sasha and Malia, these kid correspondents express, as only children can, pure optimism, avid curiosity, and unadulterated elation about this historic moment. Complete with original illustrations by the letter writers themselves, and wonderful reproductions of some of the kids’ handwritten messages, this marvelous book—a true message of hope for our time—is a keepsake for the whole family to enjoy.

Emma, Lady Hamilton, rose from poverty to become a media celebrity, and her relationship with Admiral Nelson, and her renowned beauty, made her the most instantly-recognisable woman of her era, with the press following her every move. She was a friend of Queen Maria Carolina of Naples, longed-after by the Prince of Wales, and was a high society fashion icon. Born in 1765, Emma was the daughter of the village blacksmith in Neston, Cheshire, who died just two months later, leaving the family in difficult circumstances. After failing to find a permanent position locally, Emma took the stagecoach to London and the start of her remarkable journey to

international fame. Emma worked for various actresses at Dury Lane theatre, before becoming a dancer, a model and, later, a hostess. Her beauty brought her to the attention of Charles Grenville, the second son of the Earl of Warwick, who took her as his mistress, and became the model for the painter George Romney. These paintings thrust Emma into the social spotlight and she soon became London's top celebrity. When Grenville needed to find a rich wife, Emma was passed onto Sir William Hamilton, British Envoy to Naples. The couple fell in love and were married in September 1791. When in Naples, Lady Hamilton, as she now was, became a close friend of Queen Maria Carolina, sister of Marie Antoinette. It was also in Naples that she met Admiral Nelson – and the great love affair began. Much has been written about this later period of her life, but with Hugh Tours making full use of the letters Emma wrote as well as those she received throughout her life, the fascinating story of her early years is also revealed. This is history as moving as a great tragic novel; most moving of all, being the return, after Trafalgar, of Emma's last letter to Nelson, unopened.

A sinister influence is at work in Victorian London with Sherlock Holmes and Doctor Watson running a hidden criminal empire. **THE CRIMINAL MASTERMIND OF BAKER STREET** explores all of Sir Arthur Conan Doyle's original stories through the lens of Holmes as a criminal while adding many new exciting tales of Holmes' daring to delight its readers.

Coinciding with the release of the Saunders' first novel, *Lincoln in the Bardo* (2017), *George Saunders: Critical Essays* is the first book-length consideration of a major contemporary author's work. *Letters to Tobitha* is comprised of correspondence from a soldier in the 104th Illinois Infantry telling the personal record of the battles of this unit during the years of 1862 to their final march through the streets of Washington DC in 1864. These letters speak of the harsh living conditions and survival strategies of those involved.

Best known for her long-running comic strip *Ernie Pook's Comeek*, illustrated fiction (*Cruddy*, *The Good Times Are Killing Me*), and graphic novels (*One! Hundred! Demons!*), the art of Lynda Barry (b. 1956) has branched out to incorporate plays, paintings, radio commentary, and lectures. With a combination of simple, raw drawings and mature, eloquent text, Barry's oeuvre blurs the boundaries between fiction and memoir, comics and literary fiction, and fantasy and reality. Her recent volumes *What It Is* (2008) and *Picture This* (2010) fuse autobiography, teaching guide, sketchbook, and cartooning into coherent visions. In *Lynda Barry: Girlhood through the Looking Glass*, author Susan E. Kirtley examines the artist's career and contributions to the field of comic art

and beyond. The study specifically concentrates on Barry's recurring focus on figures of young girls, in a variety of mediums and genres. Barry follows the image of the girl through several lenses—from text-based novels to the hybrid blending of text and image in comic art, to art shows and coloring books. In tracing Barry's aesthetic and intellectual development, Kirtley reveals Barry's work to be groundbreaking in its understanding of femininity and feminism.

What would you ask if you could write ten letters to your future self? How might they reply? In 2017, three people got the chance to find out. Yet with access to the future come even greater surprises in the present... Letters to 2039 examines hope, despair and human development. It explores our tendency for solipsism, even when faced with the chance to receive unprecedented insight into the future, and about how we might help others. At a time when planning for and predicting the future seems to have found its cultural counterpart in mindfulness, and when quantifiable outcomes have become the favoured yardstick of progress, this book looks at the tensions between the present and the future, as well as the unpredictability of the human experience.

The Epistulae morales ad Lucilium (English: Moral Epistles to Lucilius) is a collection of 124 letters which were written by Seneca the Younger at the end of his life. They are addressed to Lucilius, the then procurator of Sicily, although

he is known only through Seneca's writings. In these letters, Seneca gives Lucilius tips on how to become a more devoted Stoic. Lucilius was, at that time, the Governor of Sicily, although he is known only through Seneca's writings. Selected from the *Epistulae Morales ad Lucilium*, these letters illustrate the upright ideals admired by the Stoics and extol the good way of life as seen from their standpoint. They also reveal how far in advance of his time were many of Seneca's ideas - his disgust at the shows in the arena or his criticism of the harsh treatment of slaves. Philosophical in tone and written in the 'pointed' style of the Latin Silver Age these 'essays in disguise' were clearly aimed by Seneca at posterity.

From the East to the far West these are personal accounts of migrations and communities that created the United States. Readers who have affection for history and the workings of human nature will be captured by the rich content and style of this collection of letters and photographs. Informal in style, the emotional tone set by the editors' commentary provides context and highlights sustaining threads of family and community. Most letters have not been previously published and most were written over 100 years ago. They were authored primarily by members of the editors' paternal hereditary lines; Watkins, Clark, Hirst & Proffitt. The lives represented occupy the history and much of the geography of the nation. No ancestor achieved any degree of fame, or fortune. Unconscious of being actors in great events they are just there; as they were; in the majesty of drama written by ordinary people. The collection is of particular interest to genealogists seeking information of mid and late nineteenth century families living in Ohio, Wisconsin, the Southwestern U.S. and the Pacific Northwest. One may even hope to discover their proverbial "brick wall" breached by a gossipy comment.
