12-07-2020 · It is predicted that in 2025 robo-advisors will act as digital platforms providing automated algorithm-led financial planning services without the need for human advisory. Such robo-advisors will first collect client data about their financial picture and their goals through surveys and use this data to automatically invest in assets and offer financial advice.

The American Psychiatric Association's Diagnostic and Statistical Manual of Mental Disorders, most recently released as the DSM-5 in 2013, is used by many organizations, individuals and government to diagnosis psychiatric disorders such as autism. The DSM-5 redefined autism.
