Machu Picchu, recently voted one of the New Wonders of the World, is one of the world's most famous archaeological sites, yet it remains a mystery. Even the most basic questions are still unanswered: What was its meaning and why was it built in such a difficult location? Renowned explorer Johan Reinhard attempts to answer such elusive questions from the perspectives of sacred landscape and archaeoastronomy. Using information gathered from historical, archaeological, and ethnographical sources, Reinhard demonstrates how the site is situated in the center of sacred mountains and associated with a sacred river, which is in turn symbolically linked with the sun's passage. Taken together, these features meant that Machu Picchu formed a cosmological, hydrological, and sacred geological center for a vast region.

Frommer's books aren't written by committee, or by travel writers who simply pop in briefly to a destination and then consider the job done. Frommer's author Nicholas Gill has been covering Peru for over a decade and this book hits all the highlights, from iconic Machu Picchu to Lima's vibrant dining scene. He's checked out all of the country's best hotels and restaurants in person, and offers authoritative, candid reviews

First published in the 1950s, this is a classic account of the discovery in 1911 of the lost city of Machu Picchu. In 1911 Hiram Bingham, a pre-historian with a love of exotic destinations, set out to Peru in search of the legendary city of Vilcabamba, capital city of the last Inca ruler, Manco Inca. With a combination of doggedness and good fortune he stumbled on the perfectly preserved ruins of Machu Picchu perched on a cloud-capped ledge 2000 feet above the torrent of the Urubamba River. The buildings were of white granite, exquisitely carved blocks each higher than a man. Bingham had not, as it turned out, found Vilcabamba, but he had nevertheless made an astonishing and memorable discovery, which he describes in his bestselling book **LOST CITY OF THE INCAS**.

What's left of Machu Picchu stands as the most significant link to the marvelous Inca civilization of Peru. Now readers can explore these ruins in this compelling *Where Is?* title. Built in the fifteenth century and tucked away in the mountains of Peru, Machu Picchu was abandoned after the Spaniards conquered the Incan empire in the sixteenth century. It remained hidden until 1911 when Hiram Bingham uncovered the marvelous complex and shared his discovery with the world. Today, hundreds of thousands of people visit the site to climb the 3,000 stone steps, explore the towering monuments, and see the numerous species that call these famous ruins home.

It was not until 1911 that people became aware of it. This is a magical city right up there in the clouds. Interested yet? Let us learn more about this amazing place called Machu Picchu. About the people who built it, about the period when it was built, how it was built, how was this amazing place like and who discovered it. A professor from Yale Hiram Bingham used to explore the less travelled and used to look out for hidden places. He was looking everywhere for Vilcabamba but nobody knew about it. Then he met with someone called Arteaga and Bingham asked him about the presence of any nearby ruins. Arteaga informed him about ruins on the top of the mountains named Machu Picchu but was reluctant to take him there because of presence of snakes. Bingham tried to offer him money and ultimately Arteaga agreed. They started the

journey to the top of the mountain. They found a boy and Bingham asked him if there were any ruins. They went on and found some Inca stones and they stumbled upon a majestic stone staircase. Upon climbing the top of the staircase, they found a stone temple and got mesmerized by the beauty of the place. They found another temple which was as enthralling. Bingham had a black box camera and he wanted to take some pictures, the 1st picture being that of the boy. Then he saw some vines in a distance and Bingham thought that it must be Vilcabamba. However, he removed the vines and understood that didn't discover Vilcabamba, fortune has been kind enough to lead him to a place that is even more wonderful. He had discovered Machu Picchu. The Machu Picchu was built by the Incas, around 1430. It was a small city but was built way on the top of the Andes mountain range. It was built at a remote place and was built between two peaks of the mighty Andes and at a height of 8,000 feet above the sea level. Known as the land of Gods- Machu Picchu was quite an organized society with all the services- military, financial, tax, goods etc. With over 150 structures including homes, palaces and temples. No doubt that Machu Picchu is "the city in the clouds."

Een fascinerende reconstructie van de ontdekkingsstocht naar de wereldberoemde Machu Picchu! Aan het begin van de vorige eeuw vochten avonturiers en ontdekkingsreizigers voor de laatste plaatsen in de geschiedenis boeken. Bijna heel de wereld was in kaart gebracht en slechts aan de meest onbereikbare plekken (de k2, Kangchenjunga, de Noord- en Zuidpool) viel nog eer te behalen. De jonge Amerikaanse universiteitsleraar Hiram Bingham III had zijn pijlen gericht op een ander doel: een verborgen stad in het Andesgebergte in Peru. Hij slaagde. Al op zijn eerste reis in 1911 door de jungle van de Inca's vond hij de nu wereldberoemde Machu Picchu. Bij terugkomst in Amerika werd de ontdekkingsreiziger onthaald als een held, en het speciaal aan hem gewijde nummer van National Geographic Magazine brak alle verkoopcijfers. In de eeuw die volgde werd er echter flink getwijfeld aan de reputatie van Bingham: was hij wel echt de eerste, en waarom nam hij zo veel kunstvoorwerpen

mee naar Amerika? Mark Adams is redacteur bij diverse reismagazines, maar ging zelf nooit op reis. Tot het moment kwam (noem het een midlifecrisis) om een tocht in de voetsporen van Bingham te maken. Samen met een eigenwijze, antisociale Australiër die alles over de Inca's weet en een groepje gidsen die alleen maar Quechua spreken en cocabladeren kauwen, wandelt Adams door de Peruaanse jungle. Als lezer ga je met hem mee, en leer je en passant van alles over Machu Picchu, Bingham, Peru toen en nu, ontdekkingsreizigers, astrologie en de Inca's.
