A concern for the ethical instruction and formation of students has always been a part of American higher education. Yet that concern has by no means been uniform or free from controversy. The centrality of moral philosophy in the undergraduate curriculum during the mid-19th Century gave way later during that era to the first signs of increasing specialization of the disciplines. By the middle of the 20th Century, instruction in ethics had, by and large, become confined almost exclusively to departments of philosophy and religion. Efforts to introduce ethics teaching in the professional schools and elsewhere in the university often met with indifference or outright hostility. The past decade has seen a remarkable resurgence of the interest in the teaching of ethics, at both the undergraduate and the professional school levels. Beginning in 1977, The Hastings Center, with the support of the Rockefeller Brothers Fund and the Carnegie Corporation of New York, undertook a systematic study of the state of the teaching of ethics in American higher education.

There is a common misconception that to practice Zen is to practice meditation and nothing else. In truth, traditionally, the practice of meditation goes hand-in-hand with moral conduct. In *Invoking Reality*, John Daido Looi, one of the leading Zen teachers in America today, presents and explains the ethical precepts of Zen as essential aspects of Zen training and development. The Buddhist teachings on morality—the precepts—predate Zen, going all the way back to the Buddha himself. They describe, in essence, how a buddha, or awakened person, lives his or her life in the world. Looi provides a modern interpretation of the precepts and discusses the ethical significance of these vows as guidelines for living. "Zen is a practice that takes place within the world," he says, "based on moral and ethical teachings that have been handed down from generation to generation." In his view, the Buddhist precepts form one of the most vital areas of spiritual practice.

In recent years, studies in the eschatology and ethics of Jesus have provoked an unusual interest among Bible students. When talking about the coming of the kingdom, did Jesus mean that there would be a divine intervention or a catastrophe? If so, were his ethical teachings intended for an emergency situation--interim ethics? This book provides an admirable introduction to eschatology in general. Dr. Wilder argues for an interpretation of the evidence that maintains the full significance of Jesus: that his eschatology, far from being a liability, represents a true disclosure of human destiny, and that there is no contradiction between it and his ethical principles, which are of permanent validity.

This book studies the interplay of economic philosophy and moral conduct as reflected in the writings of one of the most renowned scholars in Islamic history, Abū Muḥammad ibn Muḥammad al-Ghazālī (d. 1111). As is well known, Imām al-Ghazālī, nicknamed "the proof of Islam", contributed immensely to Islamic theology, philosophy, and Sufism or Islamic mysticism (taʿawwuf). Strikingly enough, al-Ghazālī also made seminal contributions to the field of economic thought, but this contribution has been largely neglected, although al-Ghazālī dedicated many chapters to what he considered just and Sharʿa-based economic conduct in (Muslim) society. This book aims to analyse and revive al-Ghazālī's understudied contribution to economic thought by emphasizing his economic philosophy and its correlation between Sharʿa's moral law and the tradition of taʿawwuf, as well as to situate his thought within the context of modern economic theories.

First published in 1968--and out of print since the 1980s--Victor Paul Furnish's treatment of Paul's theology and ethics has long been regarded as the key scholarly statement and most useful textbook on Paul's thought. Now, *Theology and Ethics in Paul* is available once again as part of the Westminster John Knox Press New Testament Library. Featuring a new introduction from Richard Hays, this timeless volume is as relevant in this century as it was in the last. The New Testament Library offers authoritative commentary on every book and major aspect of the New Testament, as well as classic volumes of scholarship. The commentaries in this series provide fresh translations based on the best available ancient manuscripts, offer critical portrayals of the historical world in which the books were created, pay careful attention to their literary design, and present a theologically perceptive exposition of the text.

Neither Jesus nor Paul developed a formal ethical system, yet each left a moral legacy that forms the core of New Testament ethics. In this book, Frank Matera examines the ethic found in the teachings of Jesus and Paul. He explores the broad range of moral concerns found in these writings and finds an identifiable unity that underlies the ethical teachings of both.

This book contains the text of the Hulsean Lectures for 1929 on the teachings of Jesus and the apostles. Scott was the first non-clergyman to hold this lectureship, and in these lectures he charts the development and gradual evolution of the teachings of Jesus through their interpretation by later teachers.

With its stimulating collection of traditions from the main figures of Islam, *Great Traditions in Islamic Ethics* takes the reader beyond the morality of Islam to the profound nature of Islamic Mystical inquiry. This excellent resource helps scholars, students and interests in Islamic Morality develop their knowledge and understanding needed to examine and scrutinize traditions in Islamic ethics. This book (hopefully the first volume of consecutive volumes) has an introduction and eight chapters. The first chapter contains selected verses from the Holy Quran which concern certain moral problems and ethical characteristics. The second chapter contains a collection of Prophetic traditions presenting moral behaviors and ethical guidelines. In this expanded and updated third edition of an important work, respected Pauline scholar Victor Paul Furnish presents an analysis of some of Paul's most famous yet often misunderstood ethical teachings. Dr. Furnish enriches his discussion of key Pauline topics including: sex, marriage, divorce, homosexuality, women in the church, and the Church in the world. He pays particular attention to the socio-cultural context of Paul's ministry, the complexity of his thought, the character of his moral reasoning, and the way his thought and reasoning may inform and challenge us today. Victor Paul Furnish is University Distinguished Professor of New Testament, Emeritus at Perkins School of Theology, Southern Methodist University, and general editor of the Abingdon New Testament Commentaries.

In this work, originally published in 1968, the distinguished theologian James M. Gustafson asks the fundamental question, "What is the significance of Jesus Christ for the moral life?" His answer is in the form of an ethical map, showing the ways in which theological affirmations about Christ relate to moral life in the writings of a number of important Christian thinkers.

"This work is a study in New Testament ethics, an attempt to understand the ethical teachings of the Gospel of Mark, and particularly of Mark 10, in the context of the narrative of that Gospel. Mark is being examined because of its fundamental importance as a New Testament text and because its ethical import has been neglected, especially the complexity and problematics which it introduces into ethical reflection."--

Excerpt from *Ethical Teachings in Old English Literature* The special object of this treatise on Old English books and authors is an ethical one rather than linguistic or critical. Technical and minute discussion is purposely made subordinate to as brief and popular a presentation of the theme as the subject-matter will allow. The more thoroughly these earlier writers are studied, the more apparent it will be that a truly devout and religious temper pervades them. It is hoped that the interpretation of this spirit, as it is revealed in these pre-Elizabethan and pre-Reformation English poets and prose writers, may prove of essential service to all English literary students and, most especially, to those engaged in clerical and homiletic studies. The author can desire nothing more as to these papers, than that the pleasure and profit of their reading may be even approximately equal to that of their preparation.
