5,000 years in the future, humankind has spread across thousands of worlds, and more than a dozen different governments exist in an uneasy truce. But human beings have found no signs of other life anywhere approaching human intelligence. This changes when scientists discover a sunless planet they name Danann, travelling the void just beyond the edge of the Galaxy at such a high speed that it cannot be natural. Its continents and oceans have been sculpted and shaped, with but a single megaplex upon it--close to perfectly preserved--with tens of thousands of near-identical metallic-silver-blue towers set along curved canals. Yet Danann has been abandoned for so long that even the atmosphere has frozen solid. Within a few years Danann will approach an area of singularities that will make exploration and investigation impossible. Orbital shuttle pilot Jiendra Chang, artist Chendor Barna, and history professor Liam Fitzhugh are recruited by the Comity government and its Deep Space Service, along with scores of other experts as part of an unprecedented and unique expedition to unravel Danann's secrets. And there are forces that will stop at nothing to prevent them, even if it means interstellar war. Other Series by L.E. Return to the future of Archform: Beauty. In the twenty-fourth century, Earth is vastly changed. Ecological and biological catastrophe have raged across the planet, but for the survivors, it is a world of plenty. Even the poorest live in abundance, and the upper class -- the ascendant -- command technological marvels. Ten years ago, Jonat deVrai was a rising star in the Marines. But he shocked his superiors by walking away from the Corps after witnessing atrocity and hypocrisy during the Reclamation of Guyana. Starting his life over, he established himself as the world's expert on the effectiveness of "prod"-- product placement, the only advertising which viewers will allow through the sophisticated filters they all use against unwanted intrusions on their electronic link networks. Prod, reinforced with sublims and the "res" -- resonant frequencies, a form of sonic branding -- is the wave of the future. Jonat now advises multinational corporations on their prod campaigns, his busy life only occasionally disturbed by vivid flashbacks to his military years. Then his comfortable world is upset when the Centre for Societal Research approaches him to study the effects of res and prod on political campaigns. After a res-heavy political rally for Laborite

Republican Senatorial candidate Juan Carlismo, armed thugs jump deVrai in a parking garage. A day later, a sniper ambushes him. What looked like a safe, lucrative contract has suddenly turned dangerous. The stakes raise further when deVrai foils a remote-controlled cydroid assassination attempt on a Popular Democrat candidate. Cydroids built from deVrai's stolen DNA are turning up dead throughout NorAm. Suspicion and conspiracy race around Jonat. Who wants him dead? Candidate Juan Carlismo's use of prod is skirting the limits of legality. The Centre has its own obscure agenda and may want deVrai as a martyr. The terrorist group PAMD is targeting ascendants in deVrai's family. And one of his clients is known for holding legendary grudges - could he have gone over the edge? With his life on the line, deVrai must sort flash from fact before it's too late. Flash is a blend of all-out thriller and thoughtful social, political, and technological exploration that gets into your mind in a way even res and prod could never match. "A marvelous thriller that plausibly extrapolates from current possibilities in IT, AI, media, and crime, it also constitutes the way for newcomers to get acquainted with Modesitt--at his best."--Booklist Other Series by L.E. What lies beneath the millions of orbiting nanotech satellites that shroud the world called Haze? Major Keir Roget's mission is to make planetfall in secret, find out, and report back to his superiors in the Federation, the Chinese-dominated government that rules Earth and the colonized planets. For all his effectiveness as a security agent, Roget is troubled by memories of an earlier mission. When he was assigned to covert duty in the Noram backcountry town of St. George, he not only discovered that the long-standing Saint culture was neither as backward nor as harmless as his superiors believed, but he barely emerged with his life and sanity whole. Now, scouting Haze, he finds a culture seemingly familiar, yet frighteningly alien, with hints of a technology far superior to that of the Federation. Yet he is not certain how much of what he sees is real—or how to convey a danger he cannot even prove to his superiors, if he can escape Haze.

De Landover-boeken gaan over de Amerikaanse advocaat Ben Holiday, die op een dag voor een miljoen dollar een magisch koninkrijk koopt om het verlies van zijn vrouw en kind te verwerken. De avonturen zijn kleurrijk en licht van toon, Vol bijzondere wendingen en verbazende personages. Ben Holiday staat misschien wel het dichtst bij Terry Brooks, die, voor hij een succesvol schrijver werd, zelf advocaat was. Landover is een magisch koninkrijk, met toverij en een elfenvolk, precies zoals de advertentie beloofde. Maar nadat hij het gekocht heeft, komt Ben Holiday er al snel achter dat er een paar details onvermeld zijn gelaten: het koninkrijk is een puinhoop. De baronnen weigeren een koning te erkennen en de boeren hebben alle hoop verloren. Een draak verwoest het platteland, terwijl een boze heks werkt aan een plan om alles te vernietigen. Bens enige volgelingen zijn

de klunzige hofmagiër Questor Teeuw, de pratende hond Abernathy en de liefvallige Wilgje, die de gewoonte heeft wortel te schieten in het maanlicht en in een boom te veranderen. En alsof dat allemaal nog niet genoeg is, krijgt Ben te horen dat de IJzeren Mark, de verschrikkelijk heer der demonen, alle toekomstige koningen van Landover voor een duel op leven en dood uitdaagt.

Bens taak lijkt onbegonnen werk: gelukkig is hij koppig

L.E. Modesitt returns to SF with a whole new future world on the brink of destruction. A brilliant scientist on the planet Devanta has created a small universe contiguous to ours --and a utopian city on one of the planets. The question becomes, though, an utopia for whom? And why is a shady entertainment mogul subsidizing the scientist? More critical than that, does this new universe require the destruction of a portion --or all -- of our universe in order to grow and stabilize? Blaine Donne is a retired military special operative now devoted to problem-solving for hire. He investigates a series of seemingly unrelated mysteries that arise with the arrival of a woman with unlimited resources who has neither a present nor a past. The more he investigates, the more questions arise, including the role of the two heiresses who are more -- and less -- than they seem, and the more Donne is pushed inexorably toward an explosive solution and a regional interstellar war. Most readers recognize L. E. Modesitt, Jr., as the author of a favorite fantasy series, be it The Magic of Recluce or The Spell song Cycle. It's always a special treat when he turns his hand again to science fiction and Archform: Beauty is no exception. Four centuries in the future, the world is rich--nanomachines watch the health of the wealthy and manufacture food and gadgets for everybody--but no Utopia, as we see in the lives of five very different people. A singing teacher suffers for her music and fights bureaucracy and apathy. A news researcher delivers the essential background details but can't help looking deeper and wondering about the real story behind the grim incidents that make the headlines. A police investigator, assigned to study trends, begins to see a truly sinister pattern behind a series of seemingly unrelated crimes and deaths. A politician aids his constituents, fights the good fight, and tries to get reelected without compromising his principles. A ruthless businessman strives to make his family powerful, wealthy, and independent. Theirs is a society where technology takes care of everyone's basic needs but leaves most people struggling to extract a

meaningful life from a world crowded with wonders but empty of commitment and human connection. Alternating the voices and experiences of these five characters in a tour de force of imaginative creation, Modesitt overlaps, combines, and builds their disparate stories into a brilliant tale of future crime and investigation, esthetic challenge and personal triumph. In the same way that he has built fantasy landscapes of surpassing fascination, Modesitt creates a believable future, one imbued with a deep understanding of the way politics works and how people act and react when their sense of themselves, of justice and truth, is exploited by others for power and control. When there's nothing left to need or want, will beauty live on in people's lives or disappear forever? L. E. Modesitt, Jr. asks difficult questions, sets himself unlikely challenges, and once again delivers an absorbing tale that enlightens, entertains, and uplifts all at once. "Modesitt has outdone himself...This brilliant novel is as thought-provoking as it is entertaining."--Publishers Weekly (starred review) Other Series by L.E.
