A winning formula for money-making success Napoleon Hill, America's most beloved motivational author, devoted 25 years to finding out how the wealthy became that way. After interviewing over 500 of the most affluent men and women of his time, he uncovered the secret to great wealth based on the notion that if we can learn to think like the rich, we can start to behave like them. By understanding and applying the thirteen simple steps that constitute Hill's formula, you can achieve your goals, change your life and join the ranks of the rich and successful. With the success stories of top achievers such as Bill Gates and Steven Spielberg, he proves that Hill's philosophies are as valid today as they ever were.

In 'De kracht van echte mannen' wijst David Deida de moderne man de weg naar een daadkrachtig leven vol integriteit, authenticiteit en vrijheid. Het boek laat zien hoe een man een bevredigend leven kan leiden, door ruimte te geven aan de kern van zijn wezen: zijn mannelijkheid. Deida stelt dat de trend naar seksuele gelijkheid een belangrijke oorzaak is van het ontbreken van geluk in relaties. Het heeft namelijk niet alleen geleid tot economische en sociale

can be translated into material reality, a framework that rests upon the power of thoughts to seek expression in physical form. Through this singular concept, the world's wealthiest and most successful individuals--rich in money, relationships, power, peace of mind, and social standing--have built and maintained their prosperity. It is the foundational principle of Napoleon Hill's Science of Success program, an achievement philosophy that effectively helped end the Great Depression and that has since made more millionaires, cultural icons, and thought leaders than any other. Hill was born in 1883 in a one-room cabin on the Pound River in Wise County, Virginia. He began his writing career at age thirteen as a mountain reporter for small-town newspapers. In 1908, as a young special investigator for a nationally known business magazine, he was sent to interview the great steel magnate Andrew Carnegie. During that interview, Carnegie shared the secrets that had enabled him to acquire hundreds of millions of dollars--a magic law of the human mind, a little-known psychological principle that was amazing in its power. Believing that this magic formula should be shared with those who did not have the time or resources to discover it on their own, Carnegie tasked Hill with spending twenty years or more developing this principle into a philosophy of personal success. This research would be conducted without pay; Carnegie merely provided Hill with access to over five hundred of America's greatest business leaders in order to test his success formula. In 1937, after twenty-nine years of research and writing, Hill published Think and Grow Rich, which contains the thirteen success
